KNOW THE BEAUTY OF INNOVATION

# It begins with the glass

— an essential for stirring curb appeal and making your neighbors jealous. It's a win-win situation either way. Luckily for you, we want you to stand out; so we found 5 new designs to enlighten your new fiberglass door. **TABITHA, ELIZABETH, CHIANTI, RIVERTON,** and **OXFORD** couldn't be more different from each other: one is romantic, one is tropical, and one is even medieval. They also come in a variety of sizes ranging from full lite to top lite, and even as part of our new full-length Fir Grain side lites. Or you can simply shut the world out, or at least your street, with mini-blinds enclosed between two sheets of glass (available in full and half lites). Match any of these choices with door skins like Mahogany, Woodgrain, and Smooth Skin. You can even go glass-less with new additions to our Modern Series. It's time to embrace these new designs and show them off!

## INSULATING SYSTEM

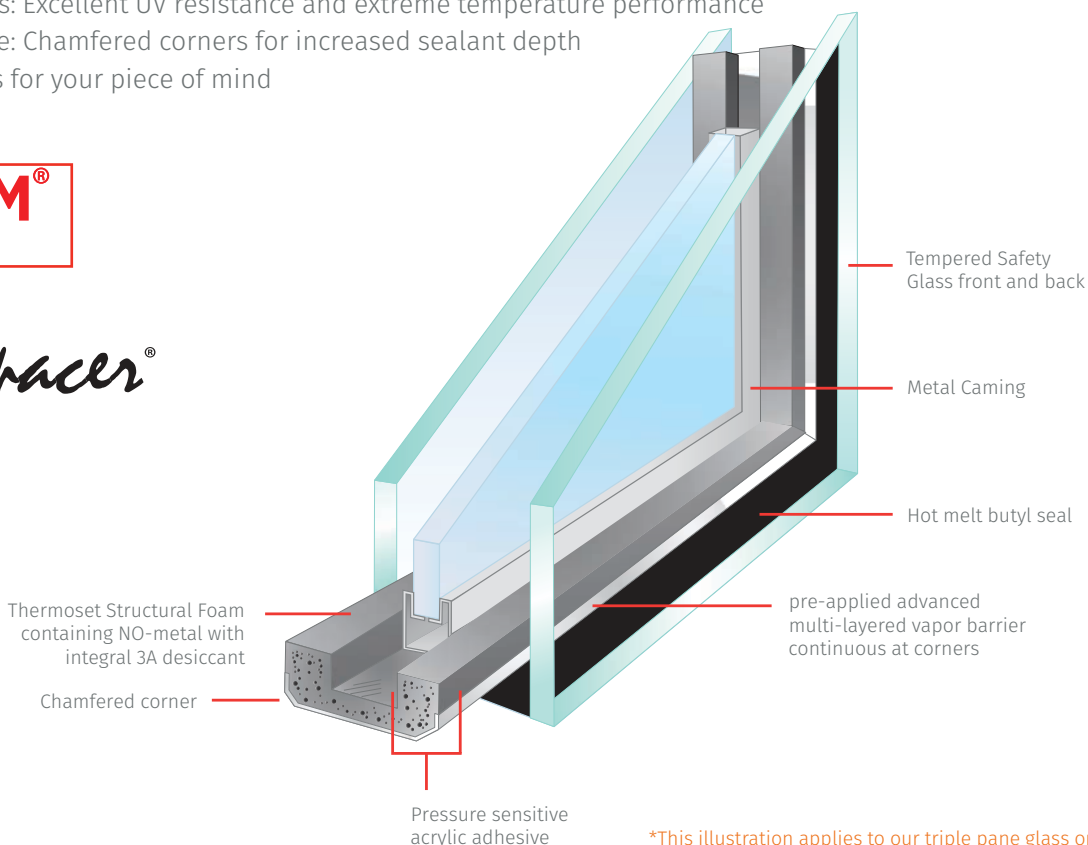

All Trimlite Decorative Doorlites are made with Super Spacer® Cushion Edge™, a flexible, U-shaped, silicone foam tape product used to wrap around and cushion our center decorative panel. Featuring a vapor barrier backing, the product used in combination with Hot Melt butyl, provides a superior Warm-Edge seal.

## PERFORMANCE FEATURES

- Warm-Edge Benefits: Superior silicone foam insulation, low thermal conductivity
- Silicone Foam Features: Excellent UV resistance and extreme temperature performance
- Dual-Seal Performance: Chamfered corners for increased sealant depth
- Tempered Safety Glass for your piece of mind

*Super Spacer®*

*\*This illustration applies to our triple pane glass only.*

# COMPARE THE **DIFFERENCE**

## PLASTPRO DOOR

- 1 Full length composite perimeter top and bottom rails prevent any water penetration and enhance screw holding ability.
- 2 Impact resistant, reinforced skin with deep embossment creates beautiful shadow lines and will not split, warp, dent or rust.
- 3 Full length composite stiles prevent water infiltration and enhance screw holding power.
- 4 Full length LVL block for strength and durability provides more stability for multi-point hardware.
- 5 100% Composite poly-fiber PF frame is insect resistant, will not rot or split.

Plastro frame with Hydrosield™ Technology

Plastro door with LVL Stile

## THEIR DOOR

- 1 Composite bottom rails but, with wood exposed on the bottom of door allowing for moisture penetration.
- 2 Shallow embossed skin resembling steel doors, reducing curb appeal.
- 3 Limited length wood stiles allow moisture to enter creating future maintenance issues.
- 4 Average wood lock block of 12".
- 5 Wood frame material will crack or rot over time.

### \* 3/0 x 6/8 Specifications

## FIR GRAIN FULL LITE SIDELITE

A new addition to the Fir Grain series, our new Full Lite sidelite gives anyone the option to complement their Fir Grain Craftsman door and increase the daylight coming into your home.

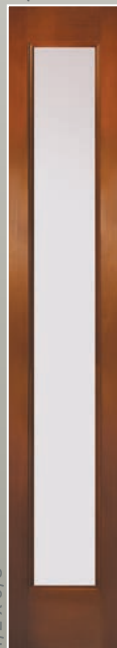

*\*This sidelite is made to pair with model DRF3C door*

### \*1/2 x 6/8 Specifications

6/8 Tall

1/2 x 6/8

## DMS5H

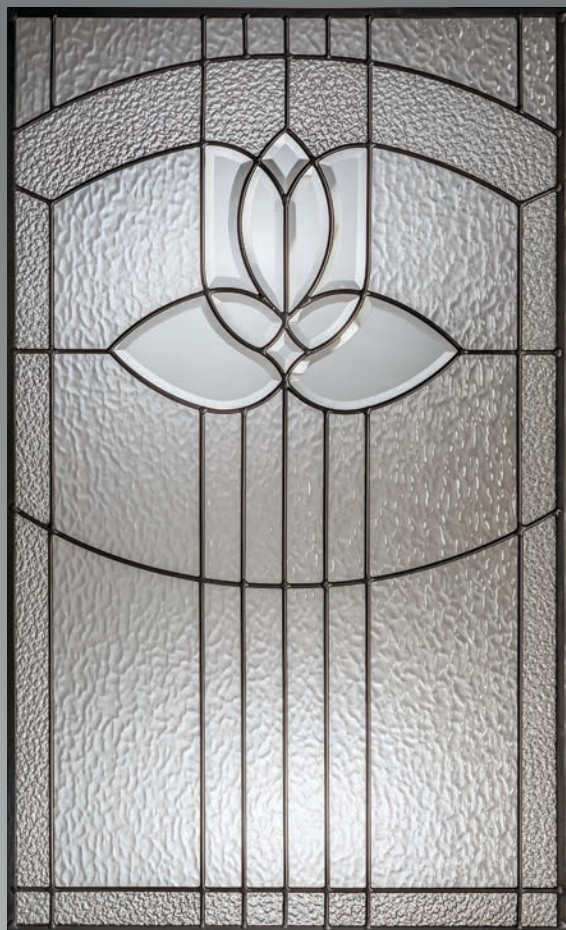

Unlike the design of this new Modern door's counterpart, the mostly vertical double lines bring contemporary verve to the countryside. The fine router carving balances the door by giving it an edge and a georgian character.

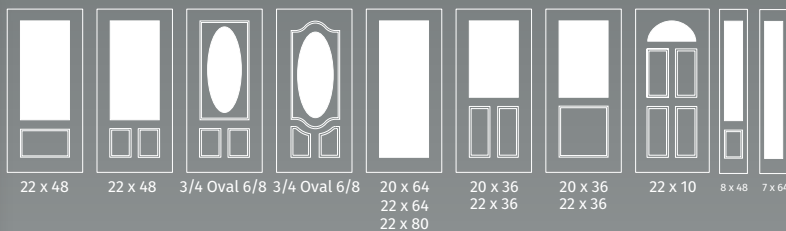

## DMS3H

Easiness defines this new *Modern* door by adding router carved lines against the silky smooth texture of the hard surface. The double lines bring an added liveliness alongside the beautiful white background.

## GLASS OPTIONS

## TABITHA

The unique glass combines 3 textures and the attention-grabbing flower-esque mold, adding a touch of romance. The symmetrical lines curve and straighten throughout the glass, initiating eccentric shapes for several textures.

## DOOR SKIN OPTIONS

## GLASS OPTIONS

## ELIZABETH

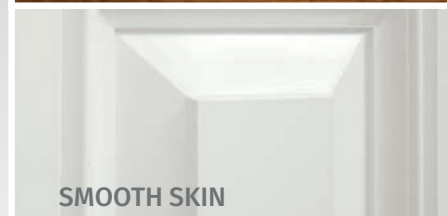

The diverse textures separated by patina coming and contained inside an array of squares and rectangles bring about different privacy settings. The puckered border eases the complexity of the wrought iron design, which is contained by a sleek black overall border.

## GLASS OPTIONS

## CHIANTI

The long symmetrical wrought iron lines accentuate the beauty of the rainfall glass design. The curves soften the edges, and bring forth a simple pattern that contrasts beautifully against the high privacy glass.

## GLASS OPTIONS

## RIVERTON

Powerful bevels frame the bright frosted glass, and give it space without overriding the simplicity. The pixelated-like corners take on a medieval feel that's sure to amplify the beauty of the whole door.

PRIVACY RATING

## GLASS OPTIONS

## OXFORD

The frost of the glass sets the base. And the contemporary check feature adds another modern dimension, as if light is peering out from a haze. The two tones make for complete anonymity and sheer elegance. It matches a tranquil day at home; it's cloudy outside, and about to rain, and all you want to do is embrace the serenity.
