WARRANTY

Plastpro doors and PF™ Frames carry some of the best warranties in the industry. We offer a Limited Lifetime Warranty on all of our PF™ Frames and Woodgrain doors, and a 25-year warranty on our Smooth Skin doors.

Plastpro's Hydroshield Technology™ Entry System – Available No Where Else

Plastpro's fiberglass entry doors and PF™ Frames with exclusive Hydroshield Technology™ provide complete protection against the elements because we offer a full composite surround to protect your entryway on all fronts. Plastpro doors and PF™ Frames work together to create a moisture barrier for the entire entryway.

We were pioneers in the industry when we introduced full-length composite stiles and top & bottom rails for our fiberglass entry doors. With the introduction of a full line of PF™ Frames and Door Accessories, Plastpro is dedicated to providing our customers with the most innovative solutions to all their product needs. Complete your worry free entryway with Plastpro Doors and PF™ Frames, a revolutionary innovation in entry systems.

HYDROSHIELD ENTRY SYSTEM

FIBERGLASS DOORS

Our fiberglass entry doors with exclusive Hydroshield Technology™ feature fiberglass reinforced door skins, full-length composite stiles, and composite top & bottom rails to prevent water infiltration on all six sides.

FULL LENGTH COMPOSITE TOP AND BOTTOM RAILS

Additional non-porous protection keeps water from seeping into the door and helps prevent the build up of mold or mildew.

FIBERGLASS REINFORCED SKIN

Fiberglass is unmarred by the wear and tear of everyday use and is unaffected by moisture and humidity. Our doors will not rot, splinter or warp like wood, and won't dent or delaminate like steel.

FULL LENGTH COMPOSITE STILES

All Plastpro fiberglass entry doors feature full length composite stiles to prevent water infiltration into the door and ensures our door will never warp, rot, or rust.

PF™ FRAMES

While other companies may use a few inches of composite material finger jointed to wood at the bottom of their frames, Plastpro is proud to offer 100% full-length composite frames.

CLOSED CELLULAR STRUCTURE

Ensures doorframe and molding will not absorb moisture and resists splitting, rotting and insect damage

RIGID POLY-FIBER FORMULATION

Plastpro's unique poly-fiber formulation provides durability, support and reliable strength

TWICE THE SCREW-HOLDING POWER

Our unique formulation looks and feels like wood, but is stronger and more durable

EASILY MACHINED

Machine, paint, or stain just like wood frames but without the wood hassles

VARIOUS LENGTHS

PF™ Frames are available in sizes up to 17'. Plastpro is proud to be the only manufacturer to offer full composite arched and radius frames for our doors.
