Door Company

Bravo Interior Stile & Rail MDF Doors

The beauty of Bravo Doors from Simpson® is that they are built just like traditional stile and rail wood doors. The construction and fine details are assembled by hand, integrating the latest technology with excellent craftsmanship.

All Bravo Doors are made from highly refined MDF, which is a stable and abundant wood fiber material. This blend of modern materials and technology delivers architecturally-true, paint-ready doors to fit any interior style.

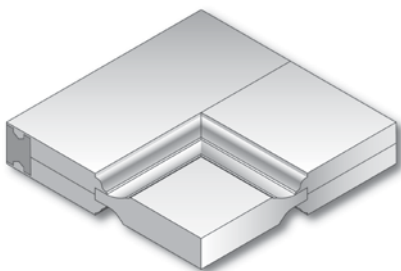

Why Bravo Doors

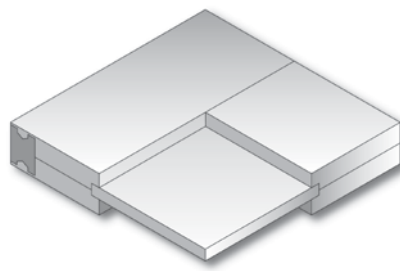

- Traditional doweled stile and rail construction provides authentic millwork profiles and joinery
- Perfect for historical renovation projects or anywhere precise molding details are desired
- Extensive design flexibility. Choose one of our standard designs or create your own custom design
- Manufactured with highly refined MDF, an environmental friendly wood fiber material
- Double primed and ready to begin the painting process
- Integra-Lok® wood edge for screw holding performance and keeping door rigid and straight
- Flat panels available in 3/8" and 11/16" thickness
- Raised panels available in 11/16", 1" and 1-1/4" thickness in hip or scoop detail
- Two raised molding options available on most designs
- Three sticking profiles: ogee, shaker and step-shaker
- 20-minute positive pressure fire rating available
- Manufactured in the United States

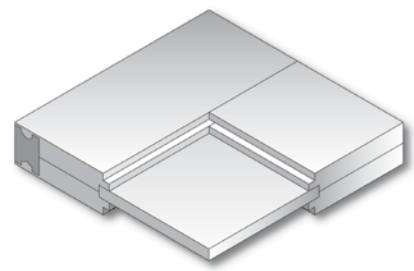

Standard Profiles

Bravo Raised Panel Ogee Sticking

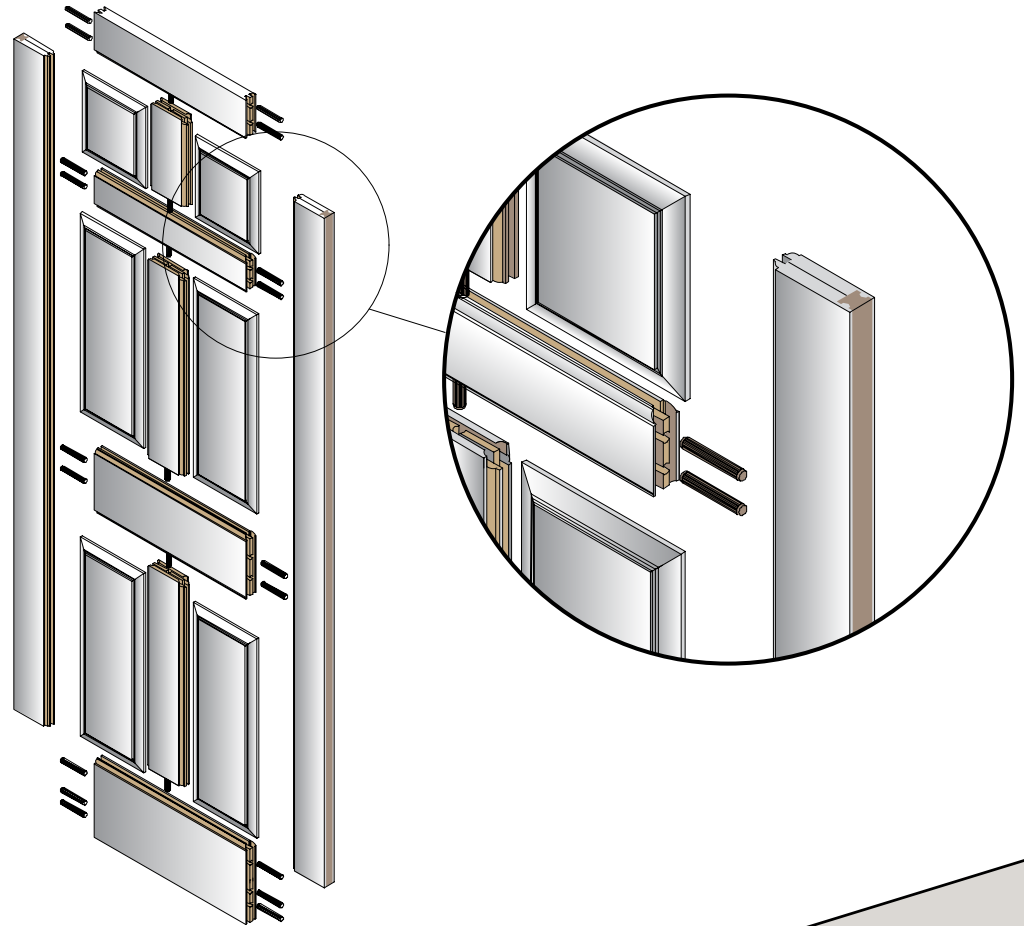

Bravo Flat Panel Shaker Sticking

Bravo Flat Panel Step-Shaker Sticking

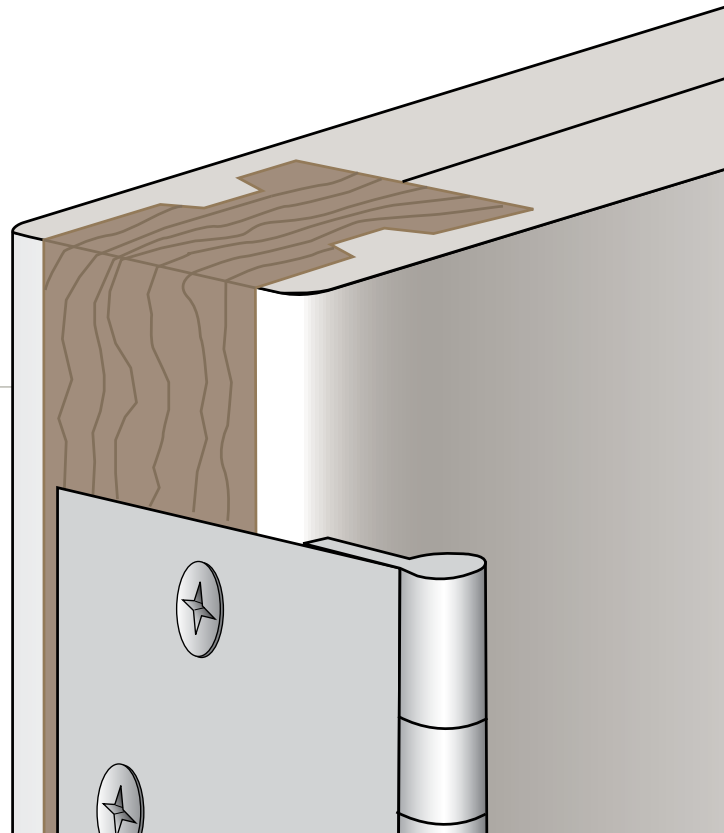

True Stile & Rail Construction

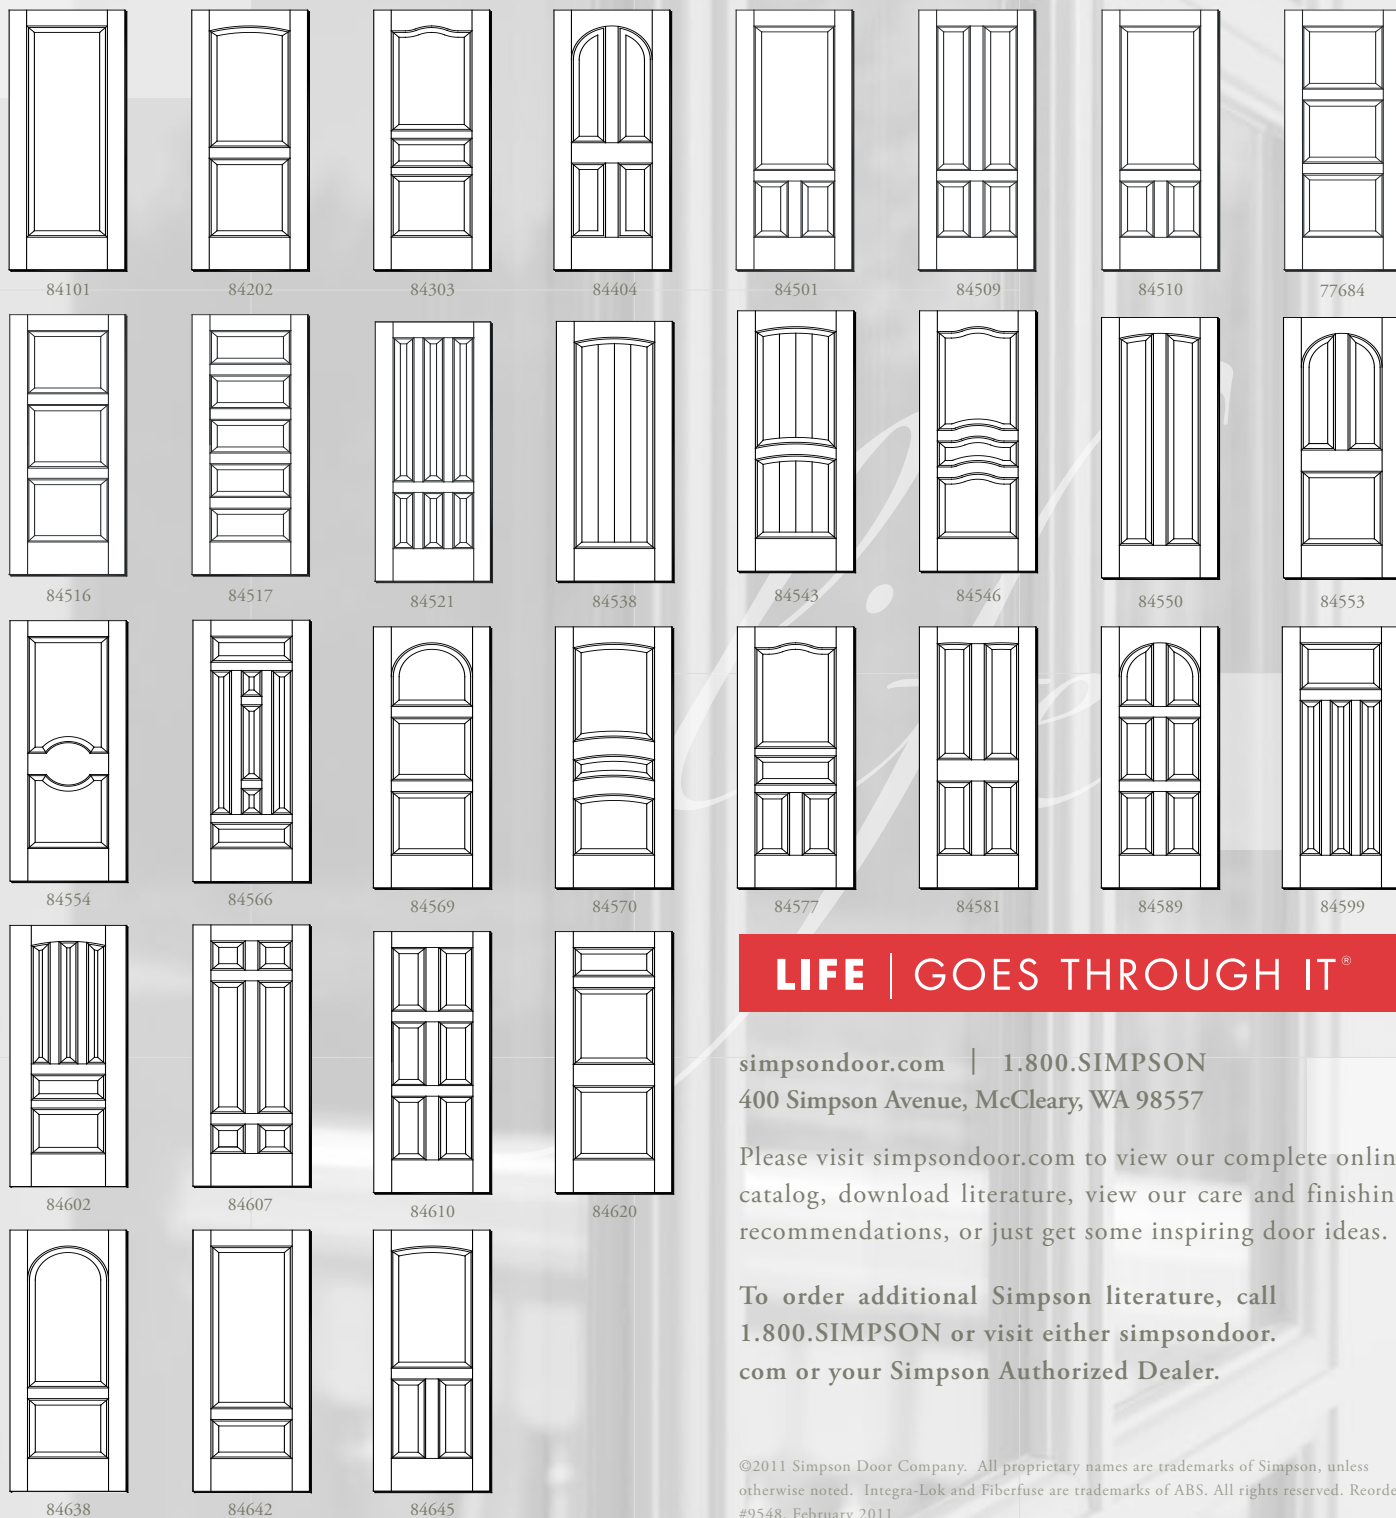

Integra-Lok® Wood Edge

The Integra-Lok wood edge is keyed and bonded into the edge of every Bravo door utilizing the Fiberfuse™ process. This unique design feature will not allow the edge to pull out and ensures screw-holding strength.

Available Door Designs

Simpson Bravo doors are available in nearly limitless designs, sizes and options. The designs shown here are some of the most popular. To view all the standard designs, visit simpsondoor.com.
