CORONADO

Anlin's Coronado series includes double slider, double hung, casement, awning, bay and bow and garden windows. While providing the additional window depth required for these operating styles, Coronado windows are designed to look "right at home" when paired with windows from Anlin's Del Mar, Catalina and Panoramic series.

Additional operating styles that blend masterfully with Anlin's Del Mar, Catalina and Panoramic window series

Energy Saving Technology

Coronado windows are designed and built for optimum performance in California using the latest energy saving technology for the specific needs of California weather.

Exceptional Styling and Quality

The features, components and craftsmanship that are designed and built into Coronado windows will make you feel great about your home. It's quality that even increases resale value.

A Superior Warranty

The superior design, materials and craftsmanship of Coronado windows allow Anlin to offer the most inclusive lifetime warranty in the industry. Should your windows ever require warranty repairs, Anlin will make them, free of charge, for as long as you live in the home. And this lifetime commitment extends to some items limited or not covered by other manufacturers, such as **screens, exterior vinyl coatings and even freight costs and labor**. Anlin's lifetime warranty coverage is also transferable to one subsequent homeowner should you sell your home. That's two lifetimes of truly worry-free windows. With Anlin, it's all covered:

Parts
Vinyl

A Select Dealer Network

To ensure your satisfaction, Coronado windows are only sold and installed by a limited number of authorized dealers who have been trained and certified by Anlin.

BETTER PERFORMANCE IS DESIGNED INTO EVERY FEATURE.

LEADING FEATURES

Saving Energy

- ▶ Coronado window frames are made using thicker vinyl and have more inner chambers that help reduce the flow of heat and cold through the frame – coming inside in the summer and escaping outside in the winter.

- ▶ Two proprietary high performance insulated glass systems deliver unparalleled energy efficiency for California homes.

INFINIT-e PLUS
HIGH PERFORMANCE GLAZING SYSTEM

QUADRA THERM™
ULTIMATE DUAL PANE INSULATION SYSTEM

- ▶ Triple fin weatherstrips create a better, weather-tight seal. And Coronado locks don't require notching the meeting rail, which means a better weather-tight seal.

Smooth Operation and Easy-Clean Glass

- ▶ High quality rollers on horizontal sliders and a constant-force stainless steel balance system on double hung windows make Coronado windows exceptionally easy to operate.

- ▶ On double hung windows, which operate vertically, moving sashes tilt in for easy cleaning of the outside glass. This is an especially appreciated feature for second-floor windows.

- ▶ Coronado windows built with the Infnit-e Plus insulated glass units come standard with an easy-clean coating on the outside of the glass. This feature makes the outside windows easier to clean and helps them stay cleaner longer.

With easy-clean coating | *Without easy-clean coating*

CORONADO
PREMIUM COMPANION VINYL WINDOWS

Appearance and Value

- ▶ The corners of Coronado frames are precision mitered at 45 degrees, welded and cleaned by computer-controlled technology. Then every corner receives the focused attention of a trained craftsman who does a hand touch-up for an especially smooth finish.

- ▶ Frames and sashes with matching beveled accents create a more polished, sleek and sophisticated look.

- ▶ Enjoy the visual appeal and balance of even sight lines. This means that when you look at the window, the size and shape of the glass area are the same on both sides of the window.

- ▶ Coronado screens have mitered corners to match the frames. The appearance is far more elegant than screens made with square, plastic corner inserts.

Security

Coronado windows pass the stringent California Forced Entry (CFE) resistance test.

- ▶ All locks on Coronado sliding and double hung windows are securely attached to metal reinforcement hidden inside the vinyl. Every window size is manufactured with this important security feature.

- ▶ Built-in ventilation latches and anti-lift stops work together to allow your windows to be open a few inches for ventilation without being able to be opened further, and without being able to be lifted out of the frame.

SAVING ENERGY

SPENDING LESS ON ENERGY LETS YOU SPEND MORE ON THE THINGS YOU LOVE.

In California, two things can send energy bills skyward: heat passing from one side of your window to the other; and solar heat sneaking into your home via the greenhouse effect on hot, sunny days. All energy efficient windows try to reduce one or both of these energy-sapping effects. For California homeowners looking to replace their windows, there are two essential performance measurements to consider. The first is U-Factor, and the second is Solar Heat Gain Coefficient (SHGC).

U-Factor is the name for the standard measurement of a window's resistance to heat being transferred through the window. In most of California, U-Factor should be 0.35 or under. The lower the number, the greater the insulation capability of that window. U-Factor is especially important in cold climates.

Solar Heat Gain Coefficient (SHGC) is the name for the standard measurement of a window's ability to keep solar heat from passing through the glass and warming your home via the greenhouse effect. In most of California, SHGC should be 0.25 or under. The lower the number, the greater the job the window does of rejecting solar heat gain. SHGC is especially important in sunny, hot climates.

Coronado windows are designed to excel at both U-Factor and SHGC.

Energy Ratings for Coronado Windows

The National Fenestration Rating Council (NFRC) provides independently tested measurements of both U-Factor and Solar Heat Gain Coefficient. Since your windows will allow heat to escape through both the glass panels as well as the window frame, be sure to compare U-Factor values for the total window and not just the glass unit.

As an example, here are the thermal performance numbers for Coronado double slider windows. (For both U-Factor and SHGC, the smaller the number, the more energy efficient the window.)

Coronado Double Slider Thermal Performance Numbers

Window & Insulated Glass System	Total Unit U-Factor	Solar Heat Gain Coefficient (SHGC)
QUADRA THERM™ with Argon Gas	0.24	0.21
INFINIT e PLUS with Argon Gas	0.27	0.21
INFINIT e PLUS without Argon Gas	0.31	0.21

All Anlin Infit-e Plus and QuadraTherm insulated glass systems have been tested to block the transmittance of ultraviolet (UV) light by 95%. You will find the U-Factor, SHGC and UV numbers for every Anlin window at anlin.com.

Coronado Windows Offer a Choice of Two High-Tech Insulated Glass Systems to Match Your Needs

INFINIT e PLUS HIGH PERFORMANCE GLAZING SYSTEM

It's the science behind maximum energy efficiency and comfort.

- 1 A triple-layer silver metal coating, invisible to the human eye, reflects and effectively blocks much of the solar heat gain from a hot summer sun.
- 2 Patented Platinum Elite spacer slows down heat transfer through the window.
- 3 Optional Argon Gas between the panes of glass slows the transfer of heat through the window.
- 4 Easy-clean coating on the outside glass helps your windows stay cleaner longer.

HOME EXTERIOR

HOME INTERIOR

QUADRA THERM™ ULTIMATE DUAL PANE INSULATION SYSTEM

The industry's most energy efficient dual pane window.

- 1 Patented multi-layer solar reflective coating on the outside glass provides the ultimate defense against solar heat gain.
- 2 Patented multi-layer heat retention coating on the inside glass helps keep more warmth inside your home on cold days and nights.
- 3 Patented Platinum Elite spacer provides powerful insulation to slow down heat transfer through the window.
- 4 Argon Gas (included) between the panes of glass slows the transfer of heat through the window.

USE LESS A/C TO SAVE COOLING COSTS ON HOT, SUNNY DAYS

KEEP MORE WARMTH IN YOUR HOME TO SAVE HEATING COSTS ON COLD DAYS & NIGHTS

WHEN IT'S HOT & SUNNY

WHEN IT'S COLD OUTSIDE

WITH CORONADO WINDOWS THE CHOICE IS YOURS

CORONADO
PREMIUM COMPANION VINYL WINDOWS

Bay and Bow Windows

Add a bay or a bow window to make any room feel larger, broaden your view and welcome in more light. Both styles allow combinations of fixed picture windows and operating windows.

Awning Windows

Hinged at the top and opening outward, awning windows let you enjoy ventilation even when it's raining. A foldaway crank handle makes opening and closing awning windows an easy, one-hand operation.

Double Hung and Double Slider Windows

Coronado's "double-acting" windows allow you to open both sashes for maximum ventilation – especially comforting in rooms with only one window. With double hung windows, which operate vertically, both sashes tilt in to make cleaning the outside glass exceptionally convenient.

Double slider windows allow both sashes to operate left and right and make ideal kitchen pass-through windows.

Casement Windows

Casement windows are hinged on the side and swing outward like a door. A smooth-operating crank handle facilitates easy operation with one hand, perfect for harder to reach places like over countertops.

Garden Windows

Garden windows are a popular choice to brighten a kitchen or bathroom. They open the room to more sunlight and provide a perfect shelf for plants and décor.

Coronado windows have a 3 1/4" frame depth to accommodate the function of its operating styles and are the perfect companion to Anlin's Del Mar, Catalina and Panoramic series.

Exterior Color Options

Love the look of your home right down to the color of your window frames. With Anlin, you've got a lot of choices!

Brushed Nickel

Polished Brass

Decorative Glass Options

► While most windows have clear glass, Coronado windows are also available with any of the following decorative glass patterns.

Standard Obscure

Glue Chip

Rain

Delta Frost

Reed

Flemish

► Your window glass can be precision engraved with a variety of V-Groove styles and patterns.

► Safety / Tempered Glass

All Anlin replacement windows can be ordered with optional tempered glass. If broken, tempered glass helps prevent injury by disintegrating into hundreds of small, less dangerous pieces.

Frame Options

Choose a frame style that gives your home the look you love. Our most popular Contemporary frame and our Brickmould frame surround the window in decorative beauty. If "less is more" is your design style, our Block frame is streamlined to fit entirely within the wall opening.

G340 Tinted Solar Reflective Technology

The ultimate technology for combating extreme solar heat, G340 tinted triple silver coating is engineered to reflect the sun where it beats the hottest. Whether it's the searing sun of the Arizona desert or anywhere west facing windows are exposed to a scorching afternoon sun, G340 Tinted Solar Reflective Technology can dramatically reduce solar heat and lower cooling costs.

Sound Suppression Technology

Many homeowners add Coronado's optional sound package. In addition to saving energy, the sound package greatly reduces the transmission of noise from the outside of your home to the inside – making your home even quieter. You may choose to add the sound package to windows throughout your home, or only to windows facing a street or other source of noise.

CORONADO
PREMIUM COMPANION VINYL WINDOWS

5-Star Service

We've always believed that how we stand behind our products is every bit as important as how we build them. Should your Anlin windows or patio doors ever need service, Anlin has its own team of highly trained technicians and a fleet of service vehicles to ensure a great experience. From the first phone call to the completed repair, you'll appreciate Anlin's commitment to your satisfaction.

Recognized for Manufacturing Excellence

Since Anlin Windows was founded in 1990, we've continually invested in leading edge product design, technology and manufacturing practices. As a result, we've been recognized as a Top 100 U.S. Manufacturer by Window & Door Magazine and have been selected as the Industrial Business of the Year by the U.S. House of Representatives and Small Business of the Year by Congress and the California State Legislature.

“ From the way we build your windows and patio doors to the way we stand behind them – we look forward to creating an exceptional experience. ”

We encourage you to visit online review and opinion sites, such as YELP and others, to learn why so many homeowners give Anlin a 5-Star rating for our products and service.

All Anlin windows and doors are AAMA and NFRC certified, and ENERGY STAR qualified.
