# PANORAMIC

EXPANDED VIEW SERIES VINYL WINDOWS

PREMIUM QUALITY, MAXIMUM VIEW

# PANORAMIC

Anlin's Panoramic windows expand your view of the beautiful outdoors, invite more light into your home and offer a modern, slim look. As an Anlin premium series, Panoramic offers the features, quality and value that homeowners desire.

*Reveals more glass ...  
and expands the view*

## Energy Saving Technology

Panoramic windows are designed and built for optimum performance in California using the latest energy saving technology for the specific needs of California weather.

## Exceptional Styling and Quality

The features, components and craftsmanship that are designed and built into Panoramic windows will make you feel great about your home. It's quality that even increases resale value.

## A Superior Warranty

Panoramic windows are backed by the most inclusive lifetime warranty in the industry. And this lifetime coverage is transferable to one subsequent homeowner should you sell your home. That's two lifetimes of truly worry-free windows. The warranty includes an extensive list of items that are covered, free of charge to you:

**Parts, including all hardware**  
**Vinyl**  
**Insulated Glass Unit**

**Accidental Glass Breakage**  
**Exterior Vinyl Coatings**  
**Screens**

**Labor**  
**Freight**

BETTER PERFORMANCE IS DESIGNED INTO EVERY FEATURE.

# LEADING FEATURES

## Saving Energy

- ▶ Panoramic window frames are made using thicker vinyl and have more inner chambers that help reduce the flow of heat and cold through the frame – coming inside in the summer and escaping outside in the winter.

- ▶ Two proprietary high performance insulated glass systems deliver unparalleled energy efficiency for California homes.

**INFINIT-e PLUS**  
HIGH PERFORMANCE GLAZING SYSTEM

**QUADRA THERM™**  
ULTIMATE DUAL PANE INSULATION SYSTEM

- ▶ Triple fin weatherstrips create a better, weather-tight seal. And Panoramic locks don't require notching the meeting rail, which means a better weather-tight seal.

## Smooth Operation and Easy-Clean Glass

- ▶ High quality rollers on horizontal sliders and a constant-force stainless steel balance system on single hung windows make Panoramic windows exceptionally easy to operate.

- ▶ On single hung windows, which operate vertically, moving sashes tilt in for easy cleaning of the outside glass. This is an especially appreciated feature for second-floor windows.

- ▶ Panoramic windows built with the Infinet-e Plus insulated glass units come standard with an easy-clean coating on the outside of the glass. This feature makes the outside windows easier to clean and helps them stay cleaner longer.

*With easy-clean coating* | *Without easy-clean coating*

**PANORAMIC**  
EXPANDED VIEW SERIES VINYL WINDOWS

## Appearance and Value

- ▶ The corners of Panoramic frames are precision mitered at 45 degrees, welded and cleaned by computer-controlled technology. Then every corner receives the focused attention of a trained craftsman who does a hand touch-up for an especially smooth finish.

- ▶ Frames and sashes with matching beveled accents create a more polished, sleek and sophisticated look.

- ▶ Panoramic screens have mitered corners to match the frames. The appearance is far more elegant than screens made with square, plastic corner inserts.

## Security

*Panoramic windows pass the stringent California Forced Entry (CFE) resistance test.*

- ▶ All lock hardware is securely attached to metal reinforcement hidden inside the vinyl. Every window size is manufactured with this important security feature.

- ▶ Designed with security as a top priority, a continuous interlocking rail in conjunction with Anlin's window locks prevent "jimmying" the lock from the outside.

# SAVING ENERGY

SPENDING LESS ON ENERGY LETS YOU SPEND MORE ON THE THINGS YOU LOVE.

In California, two things can send energy bills skyward: heat passing from one side of your window to the other; and solar heat sneaking into your home via the greenhouse effect on hot, sunny days. All energy efficient windows try to reduce one or both of these energy-sapping effects. For California homeowners looking to replace their windows, there are two essential performance measurements to consider. The first is U-Factor, and the second is Solar Heat Gain Coefficient (SHGC).

U-Factor is the name for the standard measurement of a window's resistance to heat being transferred through the window. In most of California, U-Factor should be 0.35 or under. The lower the number, the greater the insulation capability of that window. U-Factor is especially important in cold climates.

Solar Heat Gain Coefficient (SHGC) is the name for the standard measurement of a window's ability to keep solar heat from passing through the glass and warming your home via the greenhouse effect. In most of California, SHGC should be 0.25 or under. The lower the number, the greater the job the window does of rejecting solar heat gain. SHGC is especially important in sunny, hot climates.

Panoramic windows are designed to excel at both U-Factor and SHGC.

## Energy Ratings for Panoramic Windows

The National Fenestration Rating Council (NFRC) provides independently tested measurements of both U-Factor and Solar Heat Gain Coefficient. Since your windows will allow heat to escape through both the glass panels as well as the window frame, be sure to compare U-Factor values for the total window and not just the glass unit.

As an example, here are the thermal performance numbers for Panoramic single slider windows. (For both U-Factor and SHGC, the smaller the number, the more energy efficient the window.)

## Panoramic Single Slider Thermal Performance Numbers

Window & Insulated Glass System	Total Unit U-Factor	Solar Heat Gain Coefficient (SHGC)
QUADRATHERM™ with Argon Gas	0.23	0.22
INFINIT <sup>e</sup> PLUS <sup>+</sup> with Argon Gas	0.27	0.23
INFINIT <sup>e</sup> PLUS <sup>+</sup> without Argon Gas	0.31	0.23

You will find the U-Factor and SHGC for every Anlin window at [anlin.com](http://anlin.com).

## Panoramic Windows Offer a Choice of Two High-Tech Insulated Glass Systems to Match Your Needs

### INFINIT<sup>e</sup> PLUS<sup>+</sup> HIGH PERFORMANCE GLAZING SYSTEM

It's the science behind maximum energy efficiency and comfort.

- 1 A triple-layer silver metal coating, invisible to the human eye, reflects and effectively blocks much of the solar heat gain from a hot summer sun.
- 2 Patented Platinum Elite spacer slows down heat transfer through the window.
- 3 Optional Argon Gas between the panes of glass slows the transfer of heat through the window.
- 4 Easy-clean coating on the outside glass helps your windows stay cleaner longer.

HOME EXTERIOR

HOME INTERIOR

### QUADRATHERM™ ULTIMATE DUAL PANE INSULATION SYSTEM

The industry's most energy efficient dual pane window.

- 1 Patented 14-layer solar reflective coating on the outside glass provides the ultimate defense against solar heat gain.
- 2 Patented multi-layer heat retention coating on the inside glass helps keep more warmth inside your home on cold days and nights.
- 3 Patented Platinum Elite spacer provides powerful insulation to slow down heat transfer through the window.
- 4 Argon Gas (included) between the panes of glass slows the transfer of heat through the window.

## Lock Options

Both lock types available on Panoramic windows pass the stringent California Forced Entry test.

### ► Pull-Tight Cam Lock

(standard)

Pull the window sashes together for a weather-tight seal.

### ► True Action Locks

(optional)

Lock automatically when the sash is closed and can be ordered in a range of colors and finishes.

## The Perfect Companion

For window types that need a frame that is deeper than 2 7/8", Anlin Coronado windows are a perfect companion to match the look of Panoramic windows.

Bay and bow windows make a home special. They practically bring the outdoors right inside so rooms feel larger and lighter.

Garden windows offer a popular way to brighten a kitchen or bathroom, opening the room to more sunlight and providing a perfect shelf for plants and décor.

## Decorative Glass Options

- While most windows have clear glass, Panoramic windows are also available with any of the following decorative glass patterns.

- Your window glass can be precision engraved with a variety of V-Groove styles and patterns.

## Frame Options

Choose a frame style that gives your home the look you love. Our most popular Contemporary frame and our Brickmould frame surround the window in decorative beauty. If "less is more" is your design style, our Block frame is streamlined to fit entirely within the wall opening.

**Block**  
(Standard)

## Additional Options

### ▶ Sound Suppression Technology

Many homeowners add Panoramic's optional sound package. In addition to saving energy, the sound package greatly reduces the transmission of noise from the outside of your home to the inside – making your home even quieter. You may choose to add the sound package to windows throughout your home, or only to windows facing a street or other source of noise.

### ▶ G340 Solar Reflective Technology

The ultimate technology for combating extreme solar heat, G340 tinted triple silver coating is engineered to reflect the sun where it beats the hottest. Whether it's the searing sun of the Arizona desert or anywhere west facing windows are exposed to a scorching afternoon sun, G340 Solar Reflective Technology can dramatically reduce solar heat and lower cooling costs.

### ▶ Safety / Tempered Glass

All Anlin replacement windows can be ordered with optional tempered glass. If broken, tempered glass helps prevent injury by disintegrating into hundreds of small, less dangerous pieces.

## 5-Star Service

We've always believed that how we stand behind our products is every bit as important as how we build them. Should your Anlin windows or patio doors ever need service, Anlin has its own team of highly trained technicians and a fleet of service vehicles to ensure a great experience. From the first phone call to the completed repair, you'll appreciate Anlin's commitment to your satisfaction.

## Recognized for Manufacturing Excellence

Since Anlin Windows was founded in 1990, we've continually invested in leading edge product design, technology and manufacturing practices. As a result, we've been recognized as a Top 100 U.S. Manufacturer by Window & Door Magazine and have been selected as the Industrial Business of the Year by the U.S. House of Representatives and Small Business of the Year by Congress and the California State Legislature.

“ From the way we build your windows and patio doors to the way we stand behind them – we look forward to creating an exceptional experience. ”

We encourage you to visit online review and opinion sites, such as YELP and others, to learn why so many homeowners give Anlin a 5-Star rating for our products and service.

All Anlin windows and doors are AAMA and NFRC certified, and ENERGY STAR qualified.
